

SuzENews – May 2007

Greeting,

I pray that this finds you having a blessed day in the Lord. This trip started out with some of you knowing that the doctors had told me that I had an enlarged liver and needed to be in bed for 3 months. Everything I ate the body thought it was a foreign object and it made me very sick. I told the doctors I had too much work to do for the Lord and if I was leaving this world I was going standing up. So it was a struggle to get packed and get started but God IS a BIG GOOD and HE will give you the strength if HE called you HE will equip you. When I am the weakest HE is the strongest!!!

I just got back from a 19 day tour and God really moved. In the natural it felt so GOOD to be back in the river of life and working and being a vessel that God was using.

The journey started on the 24 of February headed to Portales, NM. I pulled my 30ft 5th wheel (which was an experience in it's self). Steve, Linda and family had been working long and hard to get their new house in order and have it ready for me to stay in. They really wanted me to stay with them but I really wanted to stay in my little house and sleep in my own bed as everything in it is very comfortable. I am blessed to have a home that has wheels and when God says move you hook on and move to the next location. Remember when circuit riding preachers traveled on horses across country and stayed where ever God provided for the night. Well the only difference is I travel with bigger horses in my diesel engine (ha ha). God is Good all the time. I sang every night except for 2 nights and twice on Sundays. in Portales, Clovis, Milnsand, Elida, and Roswell. This year's crusade was awesome and I shared my testimony on Friday night.

During the altar call a young lady(teenager) that lives at the Children's home in Portales came up and let me pray with her and she rededicated her life to the Lord. On Saturday we had breakfast gathering with quite a few people and God allowed us to see His hand at work.

The very first crusade we prayed for a couple that was headed to divorce court on and they stopped it right before going to see the judge. Four years later God allowed me to talk to the couple and got hear their story of how God has worked everything out. The following Sunday the same women **rededicated her life to the Lord.** She is so on fire for the Lord and so happy. The enemy had her so bound up that she thought she didn't deserve to be happy. God is freedom and Victory if we allow HIM to break all the chains of heaviness off of us in JESUS NAME.

I was asked to be part of a revival in Tatum so on Wednesday so I hooked on and started down that way. . It was only about 60 miles down there. The wind started blowing and rocking the 5th wheel as I was pulling it. I slowed down to about 50 miles an hour. I was half way on my on my journey when felt a big pull toward the oncoming lane. I looked out my left mirror and the back of the 5th wheel was coming toward me. I screamed out Jesus Help ME and then I looked out my right mirror and the awning was dragging the ground and the medal was balling up on it. I finally get the truck and 5th wheel stopped. Thank you Lord for your hand of protection on me! I reach for the cell phone and guess what no signal. Just when you think you can rely on equipment or humans they will let you down. I got out and looked everything over and in the back of my mind I am thinking I can take care of this. I try pulling and pushing on things and nothing is moving. I call on the Lord again and ask him to send me someone. I look down the road and there is a white truck coming. I get out in the middle of the road and I wave him down. (Some thing I would never do before). He rolled his window partly down and I ask if he had a cell phone with a signal. He said no so I said could you please help me get this off so that I could go on. He kicked and used rocks and we got it off and had to leave it in the ditch. He

ducted tape the arms of the awning onto the 5th wheel and I was off again. The Lord moved every night but especially on the last night. It was awesome time as there was **15 or more were at the alter and several prayers answered before they got home. One lady had been praying for her husband to come home as they had been separated and after the revival she went home and he was there. She told him she was going to go to church and he said he never would. The little boy asked to stay with his Dad since he had not seen him in so long. Five minutes into the service the man with his son came to church.** The enemy tried so hard to keep everyone from being there and canceling it but God showed HIMSELF big time. I could go on and on. As I stated in the beginning about being sick I am feeling fine and believe when I go back to the doctor everything will be fine in JESUS name. Greater is HE that's in me than he that's in the world.

As a partner you are a part of what happened on this trip and the souls and lives changed. THANK YOU again!!! I would ask that you would continue to pray for strength for the journey, souls for the labor and that God would keep the calendar full.

Blessings,
Suzy Gayle
